Subject: D130-701 DSI Parts List

Hello Linda!

I have been working on a DSI for a modification needed for the D130-701 Basket. Below is the parts list that is required for the DSI. The people at Eagle performed this modification already and they procured all the parts necessary, same as the ones in the parts list. You will notice there is some weird things in there like some metric hardware. Should more customers order this kit in the future, do you think you will be able to procure all of the same hardware? Do you have a ball park on what the cost might be?

Thank you!

Victoria
